

What is JA Solar 610w?

JA Solar 610W are bifacial, mono PERC half-cell modules, which have a higher efficiency capacity than traditional monocrystalline solar panels. They're available in outputs ranging from 585 to 610 watts, so they're considerably larger and more powerful than most other panels.

What is a 60W solar panel?

Its highly sensitive light source can charge your mobile power supply even under natural light or cloudy conditions. Providing a more stable output of up to 18V, the 60W solar panel is perfect for a variety of devices and applications. The solar panel is perfect for travelling or going on trips in the wilderness where portable power is needed.
