

Amsterdam New Energy Power Station Energy Storage

Will Amsterdam Energy Arena BV use its own energy?

"Thanks to this energy storage system, the stadium will be able to use its own sustainable energy more intelligently and, as Amsterdam Energy Arena BV, it can trade in the batteries' available storage capacity." says Henk van Raan, director of innovation at the Johan Cruijff Arena.

Where is the largest battery in Amsterdam?

Located in Amsterdam's Westelijk Haven area, this battery is the largest in the city. The project, called Giraffe, has a power capacity of 10 MW and a storage capacity of 47 MWh. With Giraffe, sustainably generated energy can be efficiently stored and deployed at times of scarcity.

What is the Amsterdam energy cooperative?

Initiatives such as the Amsterdam Energy Cooperative enable residents to invest in local renewable energy, install solar panels, and promote energy-saving practices, strengthening community ties and commitment to eco-friendly solutions like RESCHOOL.

What is a smart grid in Amsterdam?

Smart grids in Amsterdam represent a significant advancement in the city's energy infrastructure and are a way for clean energy to be generated, distributed, and consumed. Smart grids use technology to enable smart communication among users, enhancing power storage and distribution efficiency while addressing network gaps.
