

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

How much does photovoltaic cost in China?

The data is categorized under China Premium Database's Energy Sector - Table CN.RBN: Photovoltaic: Price. CN: Price: Photovoltaic Module: 182 Single Crystal data was reported at 0.660 RMB/W in Apr 2025. This records an increase from the previous number of 0.650 RMB/W for Mar 2025.

How much will PV modules cost in 2025?

On 11 March 2025, the results of the China Datang Group's 2025-2026 PV module framework purchase tender were announced, with the spot price of n-type modules increasing from RMB0.7/W (US\$0.097/W) to RMB0.73/W (US\$0.1/W), and some modules priced as high as RMB0.75/W (US\$0.11/W).

When will BC module prices be added in Europe?

In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

Explore our tool for tracking weekly spot prices of polysilicon, wafers, cells and modules. Check average prices of any component globally and in granular categories such as that for different ...

Chinese PV Industry Brief: Polysilicon, solar module prices continue to slide Polysilicon prices fell again this week amid weak market activity and elevated inventories, ...

A Chinese solar module manufacturer among the world's 10 largest by shipments told Yicai that it recently raised the prices of products sold to Chinese distributors by about 2 ...

Although prices were flat week-over-week in CW23, the broader downtrend remains evident. Most n-type products continue to decline across the value chain, with just 3 of the 25 ...

The rising demand for renewable energy has positioned photovoltaic panels at the forefront of sustainable technology. Understanding the pricing dynamics of these panels in ...

Get the latest insights into solar component prices! This weekly report covers polysilicon, wafers, cells, modules, and solar glass. See how prices are trending for each of ...
