

How much do solar street lights cost?

**All-in-One Solar Street Lights:** These lights have the solar panel, battery, and LED lamp integrated into a single unit. They are easier to install and typically cost less upfront. Prices can range from \$100 to \$500 per unit.

**Split-Type Solar Street Lights:** In this design, the solar panel and the battery are separate from the light fixture.

Are solar street lights sustainable?

As cities and communities shift towards sustainable and energy-efficient solutions, solar street lights have emerged as a popular choice for outdoor illumination. Powered by the sun, they reduce electricity consumption and environmental impact.
