

# Black Mountain Uninterruptible Power Supply Purchase

What is an uninterruptible power supply (UPS)?

What is a UPS? An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator, it does not need to power up in order to start generating power.

What power supplies are available during the Iberian blackout?

The Iberian Blackout Should Worry Every Business Even More Explore Critical Power Supplies range of standby power backup power solutions, including uninterruptible power supplies (UPS) and emergency power systems, power quality solutions. Modular Lithium Ion Solutions.

Does uninterruptible power supply USP provide surge protection?

Many models of uninterruptible power supply USP also provide surge protection. A surge protector blocks spikes in voltage so that they do not harm your electronics. So, your battery backup is always at work, protecting your desktop computer, network equipment, or other electronic equipment and charging its battery when not in use.
