

Who makes solar power inverters in Australia?

Australia, with its abundant sunlight and progressive energy policies, provides a fertile ground for solar power inverter manufacturers. The companies discussed above--Invertermanufacturer.com, Selectronic, ABB, SMA, AERL, and Power-One Aurora--are notable players in this vibrant market.

How much does a solar system cost in Canberra?

Solar Choice regularly publishes articles with indicative pricing for PV systems in Australia's capital cities (including Canberra) in our Solar Choice Price Index. Based on the price index data from March 2025, we can see that in Canberra a typical 6 kW solar system would cost \$5,420 on average after deducting the STC rebate and including GST.

Are solar panels a good investment in Canberra?

Yes, solar panels are a good investment in Canberra. With 4.8 sun hours per day, households can lower electricity bills and increase energy independence. Self-consumption is the key to savings, as feed-in tariffs (FiTs) are low (7-10c/kWh). Payback period: Typically 4 to 8 years, depending on system size and usage patterns.

Which Solar System is best for Canberra Homes?

Sizing Your Solar System for Maximum ROI: The 6.6kW system is the most popular for Canberra homes, balancing affordability with energy production to achieve faster returns on investment.
