

What is mobile internet penetration in the DRC?

Mobile Internet penetration in the DRC is at 32.3% and Orange and Vodacom's announcement to construct new base stations in the country aligns with the country's new vision for the digital economy as included in the National Digital Plan Horizon 2025 adopted in 2019.

How can the DRC bridge the digital divide?

Deploying and operating networks, particularly in deep rural areas, continues to be a significant challenge in the DRC. To bridge the digital divide and expand network coverage in underserved communities, the companies have pledged to jointly construct up to 2,000 new solar-powered base stations over six years, using 2G and 4G technologies.

Who owns Vodacom Congo?

Vodacom is majority-owned by Vodafone (65.1% holding), one of the world's largest communications companies by revenue. For almost 22 years, Vodacom Congo has put its technology at the service of the socio-economic development of the DRC, providing a wide range of innovative technological products and services.

Why should you choose Vodacom Congo?

Thanks to its policy of corporate social responsibility, Vodacom Congo gives its subscribers access to solutions that contribute to the social and financial inclusion of the Congolese people. For more than 21 years, Vodacom Congo has been a privileged and constant partner in the economic and social development of the DRC.
