

Which countries are deploying a battery energy storage system (BESS) in 2025?

Spanning Australia, Japan, Southeast Asia and South Asia, these deployments represent a substantial contribution to 16 GWh of new Battery Energy Storage System (BESS) capacity projected to be added in APAC (excluding China) in 2025, according to BloombergNEF.

Why is Trina storage growing in Asia Pacific?

"Our growing presence across APAC reflects not only strong market demand but growing recognition of Trina Storage's differentiated technology, delivery capabilities, and long-term reliability," said Dr Leo Zhao, Head of Energy Storage at Trina Solar Asia Pacific.

What does Trina storage do for APAC?

With utility-scale projects underway across the region, Trina Storage continues to expand its footprint and support APAC's clean energy transition through safe, high-performing, and future-ready energy storage solutions.

10 July 2025 - Trina Storage, the energy storage division of global solar leader Trina Solar, has reached a significant milestone with more than 2.4 GWh of utility-scale storage capacity under ...

KOTA KINABALU: Power disruptions in east coast Sabah are expected to reduce with the launching of Sabah Electricity's Battery Energy Storage System Lahad Datu (BESS ...

As we move through this decisive decade for clean energy, Asia's energy storage market is stepping firmly onto the global stage.

Why This 300MW Project Matters Right Now As East Asia races toward carbon neutrality targets, a 300MW compressed air energy storage (CAES) facility recently commissioned in China's ...

The 100MW Southeast Asia's largest BESS project in Sabah demonstrates Malaysia's grid readiness, advancing energy roadmap, reducing diesel reliance, enabling ...

The BESS project in Lahad Datu has been recognised as the largest energy storage facility in Southeast Asia. Sabah Electricity Sdn Bhd (SESB) Chairman, Saadiah Aziz, said the ...

The Lahad Datu Battery Energy Storage System (BESS Lahad Datu), managed under Sabah Electricity, was officially inaugurated at the Sabah International Convention ...

In 2024, lithium-ion battery pack prices dropped to the lowest in eight years. Significantly lower raw material costs and more affordable ...

The energy storage station of Uzbekistan's Tashkent Solar Energy Storage Project, the largest electrochemical energy storage facility in Central Asia, was successfully connected ...

Energy storage deployment started in the US, Japan, Korea and Europe -countries developing storage technologies -while Australia has come on strong 5 Source: DOE Global Energy ...

What is a compressed air energy storage project? A compressed air energy storage (CAES) project in Hubei, China, has come online, with 300MW/1,500MWh of capacity. The 5-hour ...

The energy storage market value in Asia could surpass USD2 trillion by 2034, up from USD300 million in 2024 BESS, PHES and technologies that support the stable ...

The energy storage station of Uzbekistan's Tashkent Solar Energy Storage Project, the largest electrochemical energy storage ...

Asia Pacific Battery Energy Storage System Market was valued at US\$ 10,057.03 Million in 2024 and is projected to reach US\$ 77,016.66 Million by 2031 with a CAGR of 27.4% from 2025 to ...
