

How much money does Solarstone have?

It recently secured EUR10 million in funds to expand sales across Europe. Estonian startup Solarstone announced it has recently secured EUR10 million (\$10.1 million) in its second financing round. "With these funds, Solarstone intends to expand building integrated solar PV solutions across Europe and beyond," the company said in a statement released.

What is a Solar Tiled Roof?

A Solar Tiled Roof is a system that combines solar and roofing functionality into a perfect energy production system without compromising the visual appearance of your home. The building-integrated modules for tiled roofs interlock with nearly all concrete and clay tiles, leaving your home as beautiful as it ever was. Solar Tiled Roof is for homeowners looking to harness solar energy in an aesthetically pleasing way.

Why should you choose Solarstone's solar tiled roofs?

Solarstone's solar tiled roofs are a cost-effective and modern choice. Solarstone offers prices that are competitive with conventional on-roof solar installations. Installing a Solarstone Solar Tiled Roof is easy and efficient, with a simple gabled 60 m² roof being completed in just 1 day.

How much does a Solarstone tile weigh?

It has dimensions of 1,530 mm x 395 mm x 31 mm and weighs in at 7 kg. The Solarstone 90 W tile. The tile relies on eight cells measuring 156 mm x 156 mm and 3.2 mm prismatic glass. The second tile, called Solarstone 108 W, has a larger size of 1,824 mm x 389 mm x 22 mm and a weight of 8 kg.

A fully-integrated solar roof, installed on the UK's first Passivhaus Premium-certified home and able to generate more than four times the energy than the house consumes, has ...
