

# Financing for 20kW Off-Grid Solar Container in Cuba

How much does a 1 KW generator cost in Cuba?

At state-run Copextel retail stores, a basic 1 KW generation module costs 2,551 MLC, pegged to the US dollar. The average salary in Cuba is 4,648 pesos (approximately \$38.70) based on the official exchange rate of 120 pesos to one dollar.

Is there a problem with solar power in Cuba?

Another hurdle for the expansion of solar power in the residential sector lies in the electricity tariff subsidy, which is charged in a devalued currency. According to official figures, around six percent of the more than four million households in Cuba consume more than 500 kilowatt hours (kWh) per month.

Why is Cuba importing portable generators?

A man starts up a gasoline-powered generator in the town of Batabanó, Mayabeque province, Cuba. The country's energy problems have fuelled the importation of portable generators in the face of the frequent power cuts caused by the energy crisis in this Caribbean island nation.
