

What is the E-Deutz battery kit?

The E-DEUTZ battery kit is a modular and scalable battery system that can be adapted flexibly, quickly and cost-effectively to individual customer requirements. Mechanical dimensions and in particular the software connection and functionalities are adapted to suit the customer's application.

Why do we design EV batteries?

Mission-critical sectors like medical and defense entrust us to design and develop batteries that ensure user safety and deliver vital, life-saving functions. We also create powerful EV battery systems capable of powering heavy equipment.

Why do you need a battery engineering team?

Our engineering team has extensive expertise in designing and developing advanced battery systems in many industries. Mission-critical sectors like medical and defense entrust us to design and develop batteries that ensure user safety and deliver vital, life-saving functions.

What makes BMS a better battery management system?

With over 2,000 BMS designs and numerous patents awarded or pending, our innovations set the standard for better, safer battery management systems -- including enhanced protection against thermal propagation and enabling compatibility with various battery types.

Market leader in the battery pack development sector We are proud to say that together with our sister company Wamtechnik in Warsaw, which was ...

Inventus Power, with over 60 years of expertise, delivers custom, highly engineered lithium-ion battery solutions prioritizing safety, reliability, and innovation across diverse industries.

Inventus Power, with over 60 years of expertise, delivers custom, highly engineered lithium-ion battery solutions prioritizing safety, reliability, and ...

Electric Power Tool Battery Sixpack offers prototyping and volume manufacturing of custom batteries for your power tools. We continuously research and develop new battery ...

Sixpack develops and manufactures high performance Electric Power Tool Battery, check out our productions and get one to one custom station ...

Custom Battery Solutions Grepow is a global well-known custom lipo battery packs manufacturer, which can not only provide customers with battery cell, battery structure, BMS and other ...

We manufacture custom lithium-ion battery packs, lithium batteries for power tools and more. High welding quality, optimum design. Contact us!

Battery technology plays a crucial role in powering industrial tools and applications. Custom battery solutions are essential to meet the specific requirements of ...

Modular battery systems Together with our partners in the DEUTZ Group, we have specialized in the development and production of customized battery systems. We follow a modular ...

Custom Battery Solutions Grepow is a global well-known custom lipo battery packs manufacturer, which can not only provide customers with battery ...

Sixpack develops and manufactures high performance Electric Power Tool Battery, check out our productions and get one to one custom station service.

Battery technology plays a crucial role in powering industrial tools and applications. Custom battery solutions are essential to meet the ...

Market leader in the battery pack development sector We are proud to say that together with our sister company Wamtechnik in Warsaw, which was founded over 30 years ago, we are now ...

Replacement and replica batteries Whether for tools, emergency lights or special technology: we reconstruct existing packs using samples, photos or measurement data - especially for NiCd ...
