

Does Montenegro have 5G?

M:tel launched its first 5G base station, located in the capital Podgorica, in July 2022. Montenegro, with a population of around 630,000, has mobile services provided by three operators - M:tel, Crnogorski Telekom, controlled by Croatia's Hrvatski Telekom, and One Crna Gora, part of Hungary's 4iG.

Will Montenegrin 5G reach 80% by 2024?

February 2 (SeeNews) - Montenegrin mobile services provider M:tel, part of Telekom Srbija group, said it sees its 5G coverage in the country reaching 80% by the end of 2024. In 2023, M:tel installed base stations at fifty key locations across the country and started their network integration.

Does Montenegro have 4G?

Montenegro is a small country, but it is a rugged one. Therefore, the quality of the network depends not so much on the provider as on the geography. In large cities (Budva, Podgorica, Kotor), resorts, and along the main highways, the coverage is stable, 4G runs fast and without hang-ups.

How many base stations does M tel have in 2023?

In 2023, M:tel installed base stations at fifty key locations across the country and started their network integration. As a result, the 5G network coverage reached some 30% at the end of last year, the company's director general, Zoran Milovanovic, said in a statement on Thursday.
