

How much is the price of solar powered pump in Singapore

How much does a solar water pump cost?

A solar water pumping system comes in a wide range of prices, from around \$20 for a small water fountain pump to well over \$1,000 for deep well submersibles or irrigation pumps. The cost will depend on the size and power of the pump, the manufacturer, and the price of additional accessories you may need.

How much does a solar panel cost in Singapore?

Solar companies can typically get a single solar panel at a price of S\$0.75 per watt. Therefore, if the solar panel output is 250W, that single panel might cost you S\$187.50. However, if a homeowner is trying to buy one or two panels on their own for a small DIY project, they will likely pay closer to S\$1 per watt.
