

How much do solar panels cost in Delhi?

Industry Statistics: As of 2022, the average cost of a residential solar panel system in Delhi ranged from INR35,000 to INR50,000 per kilowatt(kW) before incentives. The government of Delhi, in alignment with national renewable energy goals, offers attractive subsidies to promote the adoption of solar panels in the region.

What are solar subsidies in Delhi for 2023?

The government of Delhi, in alignment with national renewable energy goals, offers attractive subsidies to promote the adoption of solar panels in the region. These subsidies aim to make solar power more accessible and affordable for residents and businesses. Here's what you need to know about solar subsidies in Delhi for 2023: 1.

Is solar power a good investment in Delhi?

Delhi offers a capital subsidy to residential consumers who install solar panels on their rooftops. The subsidy amount can vary, but it often covers up to 30% of the total system cost. This reduction in upfront expenses makes solar power a more attractive investment. 3. Net Metering Benefits

What are the benefits of going solar in Delhi?

Delhi also has a net metering policy that allows solar panel system owners to feed excess electricity back into the grid. In return, they receive credits on their electricity bills. This net metering arrangement further enhances the financial benefits of going solar. 4. Group Housing Societies and RWAs
