What is r4830n2?

R4830N2 is a 1740W,94% efficiency,digital controlled high power density rectifier. It converts input Voltage ranges between 85 to 300 Vac into 42 to 58 Vdc adjustable output voltage. With comprehensive protection functions,it supports walk-in start function,with low noise operation and latest technology on real time state monitoring.

Does etp4890-b3a2 support r4830g?

Apply for Huawei OLT,Huawei OSN,Huawei Router and Huawei Switch. ETP4890-B3A2 has three rectifier slots,can support R4830G,R4815N and R4830N,three R4830N rectifiers are configured by default. Monitor SMU01A,SMU01B,SMU01C are also supported,only SMU01A provides WebUI and implements remote unattended management.
