

Why do you need a Hytera repeater base station?

Hytera repeater base stations receive weak radio signals and retransmit at a higher power so that your two-way radio system can cover longer distances without the transmission degrading. Find out how a repeater can benefit you.

Who is Hytera radio?

Respond and Achieve. Hytera was founded in Shenzhen, China, in 1993 and operates on a global basis. They manufacturer radio systems and radio solutions in compliance with the DMR, TETRA, LTE and MPT-1327 standard.

Why should you choose Hytera TETRA radios?

Hytera's TETRA base stations provide powerful reliability when you need it most, and our radios offer an expansive feature list compliant with the ETSI TETRA open standard, managed through our impressive applications. Discover how we can provide your TETRA infrastructure today to deliver mission-critical communications.

Who is Hytera Communications?

Hytera Communications is a global two way radio manufacturing company, offering DMR/TETRA/broadband products and solutions for PMR industries, including reliable digital radios and systems, to ensure daily operation and emergency response more efficient.

Hytera's small base station product has an integrated design with small size and easy installation, which can greatly reduce the customer's CAPEX and OPEX. The portfolio is divided into two ...

TETRA Systems Mission-critical Communications TETRA (Terrestrial Trunked Radio) is a global standard for digital trunked radio. Secure voice and data transmission and a wide range of ...

Hytera IBS is one of TETRA base stations. Hytera is a communication product manufacturer that provides top-rated TETRA communication systems for digital radios and trunked systems, ...

Hytera has officially launched its latest innovation in Professional Mobile Radio (PMR), the next-generation DMR Trunking Cube Base Station DS-6250S.

TETRA Systems Mission-critical Communications TETRA (Terrestrial Trunked Radio) is a global standard for digital trunked radio. Secure voice ...

What is a Hytera Base Station? A Hytera base station is a vital part of digital radio communication systems. It

plays a central role in ensuring communication devices, including ...

Small cells and one-box base stations can expand wireless network capacity and overcome challenges in actual deployment in many forms. As a professional 4G/5G systems supplier, ...

Hytera, a leading global provider of professional communications technologies and solutions, has officially launched its latest innovation in Professional Mobile Radio (PMR), the ...

What is a Hytera Base Station? A Hytera base station is a vital part of digital radio communication systems. It plays a central role in ...

Hytera Repeater Base Stations Hytera repeater base stations receive weak radio signals and retransmit at a higher power so that your two-way radio system can cover longer distances ...

Hytera Repeater Base Stations Hytera repeater base stations receive weak radio signals and retransmit at a higher power so that your two-way radio ...
