

Can tropical greenhouses improve agricultural productivity in Mozambique?

Tropical greenhouses have the potential for changing agricultural productivity in Mozambique, which has lagged behind other countries in the region and the world in production per meter cultivated.

Did IDE buy 80 tropical greenhouses from Brazil?

(Photo Marlene Muzezela /iDE /2018.) With the support of a grant from the Swedish Embassy, iDE acquired 80 tropical greenhouses from Brazil to sell to farmers, with half the cost covered by the grant.

How much does a commercial greenhouse cost?

Other things that greatly impact the cost of a commercial greenhouse include shade, insulation, ventilation, and irrigation. Simple commercial greenhouses with minimal utilities can go for as low as \$2.00 per square foot. However, tent-style greenhouses with insulation and cooling are more expensive and can cost upwards of \$5 per square foot.

How much does a 50 ft greenhouse cost?

A basic 50 ft greenhouse made of PVC pipe and plastic sheeting can cost around \$500, while a more complex structure made of aluminum framing and tempered glass can cost upwards of \$10,000. It is important to carefully consider the intended use and budget when selecting the type of greenhouse to build.
