

What is Delhi solar energy policy 2023?

The Delhi Solar Energy Policy 2023 (hereafter,'the policy') was notified in March 2024 with the goal of increasing installed rooftop solar capacity to 750 MW within the state and accessing utility-scale solar capacity of 3,750 MW from outside the state.

How much solar power will Delhi have by 2027?

The Delhi government has announced plans to install 4,500 MW of solar capacity, including 750 MW of rooftop solar within the state and around 3,750 MW of utility-scale solar outside the state by 2027 under the new Solar Energy Policy 2023.

Does Delhi have a solar policy?

Delhi launched its solar policy in 2016, and in 2023, introduced an updated solar roadmap with the goal of achieving 6,000 MW of installed capacity by 2025. Households can claim up to INR 1.08 lakh in total subsidies, while commercial and industrial users benefit from up to INR 1/kWh in GBIs and 50% savings on power bills.

What is the capital subsidy for solar projects in Delhi?

State Capital Subsidy: Under the new Delhi Solar Policy, the Capital subsidy for all Solar projects for residential customers shall be given at the rate of Rs. 2,000/- per KW up to a maximum of Rs. 10,000/- per consumer. The subsidy will be passed through their first electricity bill post-commissioning of the RTS system.
