

What is the Dannevirke solar & energy storage project?

The Dannevirke Solar & Energy Storage Project is a 107 MW solar farm in Taranaki District, featuring optional battery storage of up to 72 MW / 150-300 MWh. With a 40-year operational life, it will generate 181 GWh annually--enough to power 25,000 homes--and cut carbon emissions by 13,000 tonnes.

Will a 200 MWh solar-plus-storage project be approved?

The planned 200 MWh solar-plus-storage project in Glorit, near Auckland on the North Island, has been granted resource consent and a notice of requirement by an independent panel after being referred to the government's fast-track approvals process.

Will a 179 MW solar farm be viable?

A 179 MW solar farm and 100 MW / 200 MWh battery energy storage project planned for the North Island of New Zealand has won approval from an independent panel, with a commercial decision now able to take place if the project remains viable in light of conditions applied to the build and operation. From ESS News

Is New Zealand's first large-scale grid battery storage system complete?

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery Energy Storage System (BESS) being officially opened in a ceremony later today.

The project's solar element will comprise 140,000 single-axis tracking modules, 13 inverters, and a co-located battery energy storage system. Image: Ethical Power. UK ...

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery ...

A 179 MW solar farm and 100 MW / 200 MWh battery energy storage project planned for the North Island of New Zealand has won approval from an independent panel, ...

Power Electronics NZ Ltd Operations Director Brent Sheridan sees New Zealand as a key market for storage solutions with future generation ...

A planned 200 MWh solar-plus-storage project in Glorit, near Auckland, on the North Island of New Zealand, has been granted resource consent and a notice of requirement ...

A bold step toward New Zealand's clean energy future is taking shape in the heart of Wairarapa. New Zealand Clean Energy, has officially launched the Masterton Solar & ...

New Zealand's Environmental Protection Authority (EPA) has issued resource consents for a utility-scale

project combining a 179-MW solar park with a co-located battery ...

Meridian Energy, a New Zealand state-owned energy company, has completed the development of its 100MW/200MWh 2-hour duration Ruakaka BESS.

The project's solar element will comprise 140,000 single-axis tracking modules, 13 inverters, and a co-located battery energy storage ...

New Zealand's Environmental Protection Authority (EPA) has issued resource consents to a project set to create a 179-MW solar park with a co-located battery energy ...

The Darfield Solar & Energy Storage Project is a landmark 117 MW solar development in Canterbury, New Zealand, featuring optional battery storage of up to 106 MW / 200-400 MWh. ...

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery Energy Storage System being officially ...

The project will be developed at the Huntly Power Station, New Zealand's largest thermal power station. Image: Genesis Energy. Genesis ...

A significant step has been taken for renewable energy in New Zealand with the approval of the 179 MW Auckland Solar-Plus-Storage project. An independent

The Dannevirke Solar & Energy Storage Project is a 107 MW solar farm in Tararua District, featuring optional battery storage of up to 72 MW / 150-300 MWh. With a 40-year operational ...

More grid-scale batteries are on the way As New Zealand electrifies, more grid-scale batteries will support the growing renewable ...
