

What is ntek battery lab?

NTEK Battery Lab focuses on studying the changes in battery standards in various countries and maintains good cooperation with well-known international institutions. The exclusive team provides highly flexible one-stop testing and certification services for manufacturers, distributors and importers in the new energy industry.

What testing systems are available in our battery labs?

Our Battery Labs have shock and vibration testing systems with a maximum force vector of 120 kN, mounting surfaces of 1.20 x 1.20 m and a maximum load of up to 1,000 kg. Shaker tests are also possible under thermal and climatic superposition with simultaneous loading/unloading.

What tests are conducted at the Offenbach battery test facility?

Below are some of the most sought-after tests conducted at our Offenbach battery test facility. The UN 38.3 transport test is a globally mandated safety standard for the transport of lithium batteries and lithium cells.

What certifications are required for International Lithium battery transport?

Mandatory for international lithium battery transport (compliant with ADR, ICAO, IMDG, and DOT regulations). The IEC 62133 certification test is one of the most widely recognized standards for the safety of portable, secondary lithium batteries.

As one of the earliest battery testing brands in China, RePower has a leading technological level and is a designated new energy project cooperation unit by the national ...

New Vertiv(TM) HPL Lithium-ion Battery Cabinet Completes UL 9540A Fire Test Vertiv, (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, today ...

Let's face it - energy storage cabinets are like the unsung heroes of our renewable energy revolution. These metal giants quietly store solar power for cloudy days and wind ...

RePower Launches New-Generation 5V Cell Testing Equipment, with Multi-Scenario Solutions Accelerating New Energy Industry Upgrade Recently, RePower launched the new generation ...

This machine is suitable for pre charging and negative pressure formation of aluminum shell batteries, and its function is to cooperate with the power cabinet. Top 10 brands of lithium ...

Shenzhen Hongda New Energy Co., Ltd. Was founded in 2014, is a research and development, production and sales in one of the battery module testing equipment and testing ...

120V 120A Li-ion Battery Pack Charging and Discharging Tester Cabinet Lithium Cell Pack Charger Discharger Aging Test Testing ...

NTEK Battery Lab focuses on studying the changes in battery standards in various countries and maintains good cooperation with well-known ...

NTEK Battery Lab focuses on studying the changes in battery standards in various countries and maintains good cooperation with well-known international institutions. The exclusive team ...

We have set up multiple branches in Huizhou, Suzhou, Zhongshan, and Beijing, covering a wide range of testing fields, including electrical safety (LVD), electromagnetic compatibility (EMC), ...

Huijue's Industrial and Commercial BESS are robust, scalable systems tailored for businesses seeking reliable energy storage. Our solutions integrate seamlessly into large-scale ...

Battery testing and certification of energy storage systems - electrical, mechanical, environmental, abuse - in our state-of-the-art ...

Battery testing is committed to conducting safety and performance tests on various types of batteries, eliminating safety hazards during the design phase, and providing protection for ...

Its business covers battery materials, battery pack manufacturing, research and development of intelligent battery testing equipment, battery cascading utilization testing, ...

As a national high-tech enterprise, new material and electronic product comprehensive public testing platform, ntek North test group is a pioneer ...

More Shenzhen NTEK New Energy Technology Co., Ltd. (hereinafter referred to as NTEK New Energy) is an impartial, precise, rigorous, and reliable third-party testing service ...
