

New solar power generation system in Yemen

Will solar power boost power in Yemen?

UAE-based Global South Utilities, an energy and water infrastructure company, is boosting its solar power generation capacity in Yemen to provide electricity to thousands of homes amid growing power challenges in the country.

Does Yemen have a solar power plant?

Yemen, widely regarded as the Middle East's least electrified nation, is now benefiting from its first large-scale solar plant, which is helping restore power to tens of thousands of households in Aden. The Aden Solar Power Plant, a 120-megawatt facility funded by the United Arab Emirates, began operations in July 2024.

Is solar energy a beacon of hope for Yemen?

In a country long plagued by power shortages, solar energy is emerging as a beacon of hope. Yemen, widely regarded as the Middle East's least electrified nation, is now benefiting from its first large-scale solar plant, which is helping restore power to tens of thousands of households in Aden.

Can solar power Yemen's Ataq city?

Photo: Global South Utilities UAE-based Global South Utilities inaugurated a 53-megawatt solar project in Yemen to power 330,000 households, significantly enhancing local electricity access. Electricity from the plant will "fully meet" the needs of Ataq City and six surrounding districts.

Collectively, the two projects will deliver renewable energy to more than one million homes, making this the largest initiative of its kind in Yemen's clean energy sector. On ...

Discover how a new 6.5 MW solar power plant by LONGi and IES marks a major step for Yemen's energy security, connecting to the national grid for the first time.

UAE-based Global South Utilities, an energy and water infrastructure company, is boosting its solar power generation capacity in Yemen to provide electricity to thousands of ...

UAE-based Global South Utilities (GSU), part of Abu Dhabi's Resources Investment LTD, inaugurated a 53-MW solar farm in the governorate of Shabwah, southeastern Yemen, ...

On 28 August, GSU inaugurated the Shabwah Solar Power Plant in Ataq, Shabwah Governorate, with a generation capacity of 53 megawatts and a 15 MWh battery storage system.

A Solar Breakthrough in a Power-Starved Nation In a country long plagued by power shortages, solar energy

New solar power generation system in Yemen

is emerging as a beacon of hope. Yemen, widely regarded as ...

Yemen's first large-scale solar power plant is offering much-needed relief to Aden, a city long plagued by electricity shortages that ...

Yemen's first large-scale solar power plant is offering much-needed relief to Aden, a city long plagued by electricity shortages that intensify during the summer heat.

Wind energy technology, which harnesses wind's kinetic energy through turbine generators to produce electrical power, complements solar PV in Yemen's renewable energy ...

Global South Utilities launches new 53MW plant in Ataq and aims to double capacity of Aden project to 240MW UAE-based Global South Utilities, an energy and water ...
