

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

Why should we build a solar park in Borup?

This park in Borup is the first of many, and it signals our long-term commitment to building a more flexible and resilient energy infrastructure," said Nikolaj Holtet Hoff. 2024 Nordic Solar.

A new battery storage project is nearing completion in Borup, Denmark, a region just north of the country's capital city, Copenhagen. According to Renewable Energy ...

Forget any preconceptions about solar power in the Nordics; the cold, seasonally dark region is fast becoming a solar success story.
