

Off-grid cost of Indian solar containerized systems

How much does an off-grid solar system cost in India?

The average price of an off-grid solar system in India typically ranges from INR85,000 to INR1,05,000 for a 1kW system, with the cost scaling up for larger capacities-reaching up to INR7 lakh or more for a 10kW system, including installation and batteries.

Does India offer a subsidy for off-grid solar?

The Indian government offers homeowners a subsidy under the PM Surya Ghar Muft Bijli Yojana for installing on-grid rooftop solar systems, not off-grid solar. Q. How many batteries are required for off-grid solar systems? A. This is highly subjective and depends upon the size of the off-grid solar system you are installing.

Do Indian homes need off-grid solar?

Most Indian homes do not require off-grid solar systems, as their power consumption needs are met by on-grid rooftop solar systems, which are much cheaper and easier to maintain. However, you will need an off-grid solar system in the following situations:
