

What is a portable charger?

A portable charger, also known as a power bank, is a compact battery pack that stores electrical energy to charge your devices on the go. These versatile backup batteries come in various sizes and capacities, from small lipstick-sized chargers perfect for emergency phone charging to large power stations capable of powering laptops and tablets.

Why should I buy a portable phone charger?

Portable phone chargers and power banks are convenient for on-the-go use and make long travel days less stressful. Next time your cell phone or tablet runs out of battery, you won't have to search for a working outlet. They come in many sizes, similar to power packs.

How do I choose the right portable charger?

Selecting the right portable charger requires careful consideration of several key factors. Each element plays a crucial role in determining how well the power bank will meet your specific needs: Capacity: Measured in milliamp-hours (mAh), this indicates how much charge the power bank can hold. Higher capacity means more charges for your devices.

What makes a good portable charger?

Capacity: Then there's the other size: each portable charger has its own mAh rating for its maximum internal electrical charge. The bigger the mAh rating, the bigger the battery inside and the more it can recharge.
