

# Qatar Multifunctional Energy Storage Power Supply Procurement

When will a peak-load power plant be operational in Qatar?

It is scheduled for completion and expected to be operational by January 2027. Peak-load power plants enhance grid stability and reliability by meeting surging electricity demand during peak periods. The latest EPC order aligns with Qatar National Vision 2030 to transition towards a more efficient energy mix.

Is Doosan Enerbility clinching a contract for a gas-fired power plant?

Doosan Enerbility Co. has clinched an engineering, procurement and construction (EPC) contract for a gas-fired power plant from Qatar in a consortium that includes Power Construction Corporation of China (PowerChina), according to foreign media reports.

How much does Doosan Enerbility cost?

The contract also includes commissioning of two F-class advanced gas turbine generator units, alongside auxiliary systems. Doosan Enerbility will take charge of about half of the project, amounting to around \$200 million. The plant will be located in the Ras Abu Fontas Industrial Zone, south of Doha.
