

Romania Commercial and Industrial Energy Storage Project

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floresti, Cluj county, which is expected to be operational by the end of 2025.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

Does Romania have a double taxation of stored electricity?

Romania's National Energy Regulatory Authority (ANRE) recently eliminated the double taxation of stored electricity. The new rules exempt electricity stored and then reinjected into the grid from several tariffs, removing a significant financial barrier for investors.

Following strong growth in energy storage deployments, SolarToday continues to expand its energy storage portfolio across Europe -- including a 5 MWh utility-scale project in ...

The project consists of a large-scale standalone battery storage facility that Premier Energy expects to construct primarily during 2026, with commissioning anticipated in ...

" [The Eurowind Energy] contract marks the most significant storage project in our portfolio and consolidates the position of our ...

" [The Eurowind Energy] contract marks the most significant storage project in our portfolio and consolidates the position of our Renewable EPC by Allview division as a key ...

Its energy storage business, JA Energy Storage, provides customer-centric solutions for utility, commercial & industrial, and residential applications - reinforcing JA Solar's ...

Share your project details and our engineering team will design the optimal energy storage solution tailored to your objectives.

Romania Commercial and Industrial Energy Storage Project

This exhibition will showcase a wider range of energy storage products, including the latest commercial and industrial and residential energy storage solutions. We sincerely invite you to ...

Bucharest / Stockholm, 21 October 2025 - Repono AB, the Sweden-based pan-European energy storage operator, has completed the acquisition of a 202 MW / 404 MWh (2.0 h) standalone ...

Nova Power & Gas, part of the E-INFRA group, has announced the commissioning of the largest battery energy storage facility in Romania, with a power of 200 MW and a storage capacity of ...

Romania launches a EUR150M program to expand battery energy storage systems, adding 385 MW of capacity and strengthening municipal energy resilience.

ROI planned to be achieved within 3 years, with long-term operational savings. This case highlights the financial and operational ...

Nova Power & Gas, part of the E-INFRA Group, has announced the commissioning and start of commercial operations of the largest battery energy storage system (BESS) in ...

FLORESTI, December 12, 2025 - Nova Power & Gas, part of the E-INFRA Group, announces the commissioning and commencement of commercial operations of Romania's ...

The largest battery energy storage system (BESS) to date in Romania, with a capacity of 200 MW/400 MWh, has been commissioned in Cluj County by the private investor ...

Romania has commissioned its largest battery energy storage system (BESS) to date: a 200 MW / 400 MWh project in Cluj County, developed by private investor Nova Power & ...

Nova Power & Gas, a subsidiary of the E-INFRA Group, has officially commissioned Romania's largest battery energy storage system (BESS), a 200 MW facility with 400 MWh of ...
