

How much does it cost to install solar panels in Ireland?

The SEAI Solar PV Grant recently fell from a EUR2,100 maximum to EUR1,800 for homes. According to Ecoplex Energy, the average Irish solar installation costs between EUR6,000 and EUR17,000. So it's a big investment. To help you spend your money wisely, our researchers have compiled a list of Ireland's best solar panel installers.

Is it worth getting solar in Ireland?

Solar panels are among the best ways to reduce your energy bills and slash your carbon footprint. Don't worry about the Irish weather - it is definitely worth getting solar in Ireland, and Ireland's government offers solar panel grants worth thousands of euros to help you buy them. No wonder solar is proving so popular.

How much solar energy does Ireland generate?

According to the latest figures from the Sustainable Energy Authority of Ireland (SEAI), Ireland generated 0.65 TWh of solar electricity in 2023, more than 300% up on the year before. Ireland is on course to generate 80% of its electricity from renewable sources by 2030.

Should Ireland switch to solar?

Ireland is on course to generate 80% of its electricity from renewable sources by 2030. But switching to solar is still a big decision and, despite the government's help, it can be an expensive one. The SEAI Solar PV Grant recently fell from a EUR2,100 maximum to EUR1,800 for homes.
