

What is a solar court?

A solar court is a typical feature of ancient Egyptian temples, consisting of two distinctive parts: an open court and an elevated, roofed chapel that was accessible by a staircase and often located on or near the roof of the temple. The most typical feature of the court is the presence of a large freestanding altar in its very center.

What is solar trees marketplace?

Solar Trees Marketplace is designed, on the one hand, to express the beauty of nature and, on the other hand, to replicate the positive well-being effects of being in nature. A word from the architect - Koichi Takada, says, "We were shocked to learn that this site was covered in trees as recently as 1984."
