

Where are tiles made in Ghana?

Tile production in Ghana takes place at a number of different sites, including factories, quarries, and cement plants. The most common types of tiles produced in Ghana are porcelain tiles, ceramic tiles, and terrazzo flooring. How much does tile cost in Ghana? The price of tiles varies depending on the type and quality of tile being purchased.

How much does a tile cost in Ghana?

For example, ceramic tiles tend to be more expensive than porcelain tiles. However, prices also vary depending on the location within Ghana - tiles produced in larger cities such as Accra tend to be more expensive than those produced in rural areas. It is estimated that average prices for tiles range from GH¢20 to GH¢60 per square foot (sq ft).

What are the different types of tiles in Ghana?

Here is a breakdown of the different types of tiles and their prices in Ghana: Ceramic Tiles: Ceramic tiles are made from clay and fired at high temperatures to create a hard surface that can be used for floors, walls, and other surfaces. Prices start at around GH¢60 per square meter.

Why should you buy ceramic tiles in Ghana?

Buying ceramic tiles in Ghana directly from the manufacturer has the advantage of low prices. When you buy directly from the company, you get them at factory prices. Our floor tiles in Ghana do not require further processing when you receive them. Just level up the surface and get ready to work. Installation should be a straightforward process.
