

There is an uninterruptible power supply in Copenhagen

What should I do if I experience a power outage in Denmark?

The power supply in Denmark is very stable, and if power outages occur, it is often only a minor local interruption. If you experience a power outage, you should check whether it is only in your household, or if the entire property or neighbourhood is affected. If the outage is affecting the entire neighbourhood, contact your grid company.

Do all electricity suppliers in Denmark have a supply obligation?

All electricity suppliers in Denmark have a supply obligation, which is regulated in section 6b (6) of act no. 119 of 6 February 2020, the Electricity Supply Act.

How secure is Denmark's electricity supply?

Denmark has a high level of security of supply for electricity compared to most other countries. Danish consumers were without electricity supply for ~20 minutes/year on average in the last five years. The 20-year average is ~40 minutes per year.

How do I complain about energy supplies in Denmark?

You can use the Danish Energy Supplies Complaint Board's complaints guide. You can find the complaint guide via the complaint board's website. Please note that the information is only available in Danish.
