

# Transparent fast charging portable power bank

What is a portable power bank charger?

A portable charger power bank, such as the myCharge Solar Charger Portable Power Bank - PowerFold 8000 mAh, features fold-out solar panels and is designed to recharge your cell phone and USB devices in the wild and while camping. (See images and packaging for charging requirements and instructions.)

Can a power bank charge a phone?

Yes, most power banks can charge a phone. They provide ports for charging devices, and some even come with built-in charging cables for convenience.

How fast can a 2500 Power bank charge?

While it has a relatively high battery capacity, it's rated at 90.8 Wh, making it airline-safe. This high capacity also makes the portable charger capable of charging Xiaomi 14 Pro 3.88 times, iPhone 15 4.91 times, and MacBook Pro 0.69 times. As for the charging speed, the new 2500 power bank supports 212W fast charging.

Does a power bank have pass-through charging?

Pass-through charging is a handy feature on both power banks and USB-C hubs. But it's not perfect, particularly on power banks. According to RavPower, a power bank and charger manufacturer, excess heat is an enemy of the lithium-ion batteries used in power banks.
