

Why did Pope Francis ask the Vatican to build a solar farm?

Pope Francis last year asked the Vatican to study developing the area into a vast solar farm, hoping to put into practice his preaching about the need to transition away from fossil fuels and find clean, carbon-neutral energy sources. Pope Leo XIV visited the site in June and affirmed that he intended to see Francis' vision through.

Does Vatican City have solar power?

Yes. Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% of its electricity from renewable sources. Several church organizations around the world are making the move to solar.

Where are solar panels located in Rome?

Sometimes the solar arrays are situated on top of greenhouses, interwoven among crops, or elevated plants. Where is the Vatican's solar installation located? The agrivoltaic plant is situated on the Holy See's property at Santa Maria di Galeria on the outskirts of Rome.

Will Italy turn a 430-hectare field north of Rome into a solar farm?

(Yara Nardi/Pool Via AP) ROME (AP) -- Italy agreed Thursday to a Vatican planto turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first carbon-neutral state.
