Australian Power Equipment provide supply low, medium and high voltage equipment to clients across the Power Generation, Infrastructure and Resources industry.

How long does a 240 volt power station take to recharge?

When recharging the Power Station with the 240 volt power adaptor supplied,it only takes between 1 and 1.5 hours to be fully recharged. The power station is compact and only weighs 6.7 kilograms,so it is very easy to carry around and to use outside. I can't fault this wonderful product and I use it every day of the week.

Do all solar panels come with a 240V PS?

Not all these devices come with their own 240v PS but you can usually buy one at extra cost,however they are usually all equipped to take power from Solar Panels (also at extra cost but you can frequently pick up suitable panels 2nd hand at a reasonable price).
